

Program Title	Location	Language of Instruction	Academic Standing	Area(s) of Focus	Eligibility	Summary
<a href="#">SFS Conservation and Development Studies</a>	Cambodia, Siem Reap	English	Freshman, Sophomore, Junior, Senior	Environmental Studies, Environmental Ethics, Ecology, Conservation, Sustainable Development, Environmental Sociology	- 2.8 cumulative GPA for semester programs; 2.6 cumulative GPA for summer programs - Previous college-level ecology, biology, or environmental studies course required for semester program	Offered through the School for Field Studies (SFS), the Climate Change, Ethics, and Conservation semester program is an approved UW affiliate program.  Join SFS in Cambodia where you will learn about the mighty Mekong River and its importance to the region's ecosystems and people. You will identify the drivers of environmental change and seek ways to mitigate the damage to natural systems while maintaining human livelihoods. Your research will play a critical role in local capacity-building: through education, benchmarking environmental conditions, and monitoring the rapid changes to natural systems within this vibrant region.
<a href="#">CET Vietnam: Development Studies</a>	Ho Chi Minh City, Vietnam	English, Vietnamese	Junior, Senior	Vietnamese, Humanities, Social Science	- 3.0 cumulative GPA	You will see international development in action through courses that focus on development studies and public health, and you can take up an internship opportunity with a local organization or non-profit.  The program also includes traveling seminars that take you to other places in Vietnam or nearby countries, like Cambodia, to connect your studies to lived realities.
<a href="#">CIEE Community Public Health and Development &amp; Globalization in Thailand</a>	Khon Kaen, Thailand	English, Thai	Sophomore, Junior, Senior	Community Health, Public Health, Development and Planning, Environmental Studies, Sociology, Thai Language	- College-level coursework in public health or sociology recommended for students pursuing the Community Public Health program - 2.5 cumulative GPA	On these programs you can choose one of two tracks: Community Public Health or Development and Globalization.  The Community Public Health program in Thailand provides an attractive option for students interested in studying community health issues and public health policy in an Asian context in English coupled with learning Thai as a second language.  The Development and Globalization program helps students to understand the complexities concerning development and globalization issues and the role we play as global citizens. You'll also take a Thai language course.
<a href="#">UW Microbiology and Public Health in Northern Thailand</a>	Chiang Mai, Thailand	English	Freshman, Sophomore, Junior, Senior	Biosciences, Pre-Health, Public Health	- Need to have completed Micro 303 (or Micro 101 with program consent) before the program - 2.0 cumulative GPA	Complete UW-Madison bioscience major and Global Health Certificate requirements while studying in a fascinating and friendly destination. In addition, you will experience a different cultural context on this seven week program in picturesque northern Thailand.  You will complete a microbiology lab course and a Population Health Sciences course, called "Public Health and Sustainable Development", in Thailand focusing on culture, health, and development.  Several group excursions are included in the program, focusing on topics such as development and social challenges, public health and local food systems, and elephant ecology and physiology. You will also participate in cultural exchange activities with local university students.
<a href="#">UW Hmong Studies in Thailand</a>	Thailand, Laos	English	Freshman, Sophomore, Junior, Senior, Graduate Student	Hmong Studies, Languages & Cultures of Asia, Anthropology, Geography, History	- 2.0 cumulative GPA	This program focuses on the history, culture, and livelihoods of Hmong people through studying several Hmong communities in northern Thailand.  Throughout this 4-week summer program, special emphasis will be on the history of the Hmong in both Thailand and Laos. Areas of study will include the history of refugee settlement and resettlement, the involvement of the Hmong in Thailand with the Communist Part of Thailand, and contemporary issues facing the Hmong in Thailand related to citizenship, agriculture, land rights, and control of and access to natural resources.
